Information Request: IR0355

Dear Minister Morneau:

As you are likely aware, the Parliamentary Budget Officer (PBO) provides independent and non-partisan analysis to the Senate and to the House of Commons about matters related to the nation's finances and the economy, the estimates, certain other documents government documents and the cost of proposals. In carrying out my mandate, I often require information held by government departments and Crown corporations and I am entitled to free and timely access – subject to limited exceptions – to such information under section 79.4 of the *Parliament of Canada Act*.

I am currently undertaking an analysis pursuant to paragraph 79.2(1)(a) of the *Parliament of Canada Act*, which mandates the PBO to prepare reports analyzing the following federal government documents: (i) a budget tabled by or on behalf of the Minister of Finance; (ii) an economic and fiscal update or statement issued by the Minister of Finance; (iii) a fiscal sustainability report issued by the Minister of Finance; (iv) the estimates of the government for a fiscal year.

For this analysis, we would like the following supplementary information for Budget 2018:

1. Details of the underlying factors contributing to recent economic and fiscal developments in direct program spending (excluding new measures), as shown in Table A2.3 (p. 312). Where possible, please categorize the changes between the Fall Economic Statement 2017 and Budget 2018 consistent with the presentation of Public Accounts Volume 2, Section 1, Table 3a.
2. Budget 2018 referenced the more than \$180 billion in infrastructure spending committed

2. Budget 2018 referenced the more than \$180 billion in infrastructure spending committed over 12 years (p. 349). Fall Economic Statement 2016 set out the infrastructure fiscal framework in Table 2.1 (p. 30) and Budget 2018 tables A2.17 and A2.18 reconcile data for Budgets 2016 and 2017. Budget 2018 table A2.18 accounts for only \$21.2 billion of the \$91.1 billion of "existing infrastructure programs" funding (FES2016, Table 2.1). Can you provide updated data on the allocation of legacy infrastructure programs for the entire \$91.1 billion envelope?

3. Data and methodologies for the 2017-18 to 2022-23 fiscal estimates for:
- Artificial Losses Using Equity-Based Financial Arrangements
 - Stop-Loss Rule on Share Repurchase Transactions

Based on the nature of this request and the analysis I am undertaking, I believe a reasonable deadline would be 12 March 2018. A response must be provided by you, by the appropriate deputy minister or designate, or by the person occupying a similar position if access to the requested information cannot be granted by that date.

Should you or your staff have any questions about this information request, the analyst responsible, Trevor Shaw can be contacted directly at trevor.shaw@parl.gc.ca, 613-698-6568.

Attached is a reply form. It too should be filled out and returned by 12 March 2018, whether or not you provide access to the requested information. Should you refuse to provide access to the requested information, the appropriate deputy minister or the person occupying a similar position must provide a written justification for the refusal as required under section 79.41 of the *Parliament of Canada Act*.

The response letter will be posted on the PBO website and, therefore, it should not be marked "confidential". As well, the requested information should be attached separately. If this information is confidential, please clearly mark it as such, either on the electronic spreadsheet or the hard copy version.

I want to thank you for your assistance in this matter. Providing timely and effective analysis to the Senate and House of Commons for the purposes of raising the quality of parliamentary debate and promoting greater budget transparency and accountability is the PBO's primary objective. The degree to which this is possible depends, to a large extent, on free and timely access to quality information held by government departments. In doing so, you are assisting us in better serving the Senate, the House of Commons, and their members.

Yours sincerely,

Jean-Denis Fréchette
Parliamentary Budget Officer

c.c.: Katharine Rechico, Assistant Secretary to the Cabinet,
Privy Council Office, Liaison Secretariat for Macroeconomic Policy
Paul Rochon, Deputy Minister, Finance Canada

Justin, as mentioned on the call with Nick yesterday, we have been putting together a response to the PBO request for more information on the change in Direct Program Spending from the FES. A draft of our proposed response is attached.

As part of the same request (also attached) the PBO is seeking data on legacy infrastructure programs and details on a couple of tax policy items. We will forward you the proposed responses to those later in the week – trying for COB tomorrow. Our response is due Monday.

Thanks,

Brad

Justin, with respect to the PBO request, here is the letter we would plan to send back. We are not providing the other 2 parts of the information request at this time – one is being satisfied through a meeting with our tax policy folks next week and the other is made up of by information that we need to obtain from other departments so we plan to attain it and send it to them in April.

Mr. Jean-Denis Fréchette
Parliamentary Budget Officer
Office of the Parliamentary Budget Officer
50 O'Connor Street, 10th Floor
Ottawa, ON
K1A 0A9

Dear Mr. Fréchette:

Re: Information Request IR0355

Please see attached, in response to your request dated March 2, 2018 for additional details regarding the supplementary information related to Budget 2018, additional details on the underlying factors contributing to the change from the 2017 Fall Economic Statement in the Direct Program Expense outlook.

Regarding the updated data on the allocation of legacy infrastructure programs, this information is not immediately available. Federal budgets do not provide updates on all program-level funding allocations across departments. As noted in the Fall Economic Statement 2016, existing infrastructure programs included pre-2016 Infrastructure Canada programs as well as a number of programs involving social and green infrastructure. These included programs under CMHC, INAC, Public Safety Canada, Health Canada, ESDC, PHAC, and Canadian Heritage.

In Budget 2018, Table A2.16 showed fiscally significant changes to some pre-2016 infrastructure programs. These programs are:

- New Building Canada Fund
- Green Infrastructure Fund
- Building Canada Plan – Provincial-Territorial Infrastructure Base Funding Program
- Building Canada Plan – Building Canada Fund
- Canada Strategic Infrastructure Fund
- Border Infrastructure Fund

Given the nature of this request, the Department of Finance can commit to provide updated data on the allocation of legacy infrastructure programs by April 16 2018,

Yaprak Balasoglu, Secretary of the Treasury Board
Katharine Reilly, Assistant Secretary to the Cabinet, Privy Council Office

Nick Leswick

Yours sincerely,

Finally, regarding the data and methodologies for the 2017-18 to 2022-23 fiscal estimates for Artificial Losses Using Equity-based Financial Requirements and Stop-Loss Rule on Share Repurchase Transactions, I understand that Department of Finance officials and officials from your office have agreed that this request will be satisfied through a meeting to take place in the coming weeks.

Following consultations with federal departments responsible for managing these programs.

2. Response received by / Réponse demandée par le :	12 March 2018 / 12 mars 2018
3. Contact / Personne-ressource :	Trevor Shaw, trevor.shaw@govt.qc.ca , 613-699-6568
4. Information requested / L'information demandée :	<p>We would like the following supplementary information for Budget 2018:</p> <ol style="list-style-type: none"> Details of the underlying factors contributing to recent economic and fiscal developments in direct program spending (excluding new measures), as shown in Table A2.3 (p. 312). Where possible, please categorize the changes between the Fall Economic Statement 2017 and Budget 2018 consistent with the presentation of Public Accounts Volume 2, Section 1, Table 5a. Budget 2018 referenced more than \$180 billion in Infrastructure spending committed over 12 years (p. 349). Fall Economic Statement 2018 set out the infrastructure fiscal framework in Table 2.1 (p. 30) and Budget 2018 tables A2.17 and A2.18 reconcile data for Budgets 2016 and 2017. Budget 2018 table A2.16 accounts for only \$2.12 billion of the \$91.1 billion of "existing infrastructure programs" funding (FES2016, Table 2.1). Can you provide updated data on the allocation of legacy Infrastructure programs for the entire \$91.1 billion envelope? Data and methodologies for the 2017-18 to 2022-23 fiscal estimates for: <ul style="list-style-type: none"> - Artificial Losses Using Equity-Based Financial Arrangements - Stop-Loss Rule on Share Repurchase Transactions
5. Information demanded / L'information demandée :	<p>Nous souhaitons obtenir les renseignements supplémentaires suivants au sujet du budget de 2018 :</p> <ol style="list-style-type: none"> Les détails sur les facteurs sous-jacents ayant contribué à l'évolution récente de la situation économique et budgétaire en ce qui a trait aux dépenses de programmes directes (à l'exclusion des nouvelles mesures), comme indiqué au tableau A2.3 (p. 364). Dans la mesure du possible, veuillez regrouper par catégorie les changements survenus entre l'Énoncé économique de l'automne 2017 et le budget de 2018, conformément à la présentation du tableau 2.1 dans les Comptes publics, volume II, section 1. Le budget de 2018 fait référence à des dépenses d'infrastructure prévues de plus de 180 milliards de dollars sur 12 ans (p. 402). Le cadre financier pour l'infrastructure a été défini au tableau 2.1 (p. 34) de l'Énoncé économique de l'automne 2018 et les tableaux A2.17 et A2.18 du budget de 2018 rapprochent les données des budgets de 2016 et de 2017. Or, le tableau A2.16 du budget de 2018 ne rend compte que de 2,12 milliards de dollars sur les 91,1 milliards de dollars prévus pour les « programmes d'infrastructure existants » (Énoncé économique de l'automne 2018, tableau 2.1). Pouvez-vous fournir des données à jour sur l'allocation pour les anciens programmes d'infrastructure pour toute l'enveloppe de 91,1 milliards de dollars? Les données et les méthodes employées pour calculer les estimations financières de 2017-2018 à 2022-2023 pour : <ul style="list-style-type: none"> - les pertes artificielles établies au moyen de dispositions financières avec apport de capital; - le régime sur la minimisation des pertes concernant les opérations de rachat d'actions.
